Risk Segment Analysis

Contract	Total Customers	Customers Lost	Churn Rate
Month-to-month	3875	1655	42.71%
One year	1473	166	11.27%
Two year	1695	48	2.83%
Total	7043	1869	26.54%

Key Insights

*Fiber optic customers cause highest revenue loss of 114K
*Month-to-month contracts cause highest revenue loss
*Total monthly revenue lost is 139.13K every month.
*Month-to-month Chun rate is 42.71% highest risk.
*Two year contract customers are safest with only 2.83% churn rate.
*Electronic check payment shows highest churn 45.29%.

PROJECT SUMMARY

PROJECT DETAILS

Tool Used : SQL Server + Power BI
Dataset : Telecom Customer Data
Total Records : 7,043 Customers
Pages : 3 Dashboards

KEY FINDINGS

- Overall Churn Rate = 26.54%
- Total Customers Lost = 1,869
- Monthly Revenue Lost = 139.13K
- Month-to-month Contract Churn Rate = 42.71% (Highest)
- Electronic Check Payment Churn Rate = 45.29% (Highest)
- Fiber Optic Internet Highest Revenue Loss = 114K
- Customers with 0-12 months tenure churn the most (1037)
- Senior Citizens Churn Rate = 41.68%

BUSINESS RECOMMENDATIONS

- Target Month-to-month customers with special retention offers to reduce 42.71% churn rate
- Encourage customers to switch from Electronic check payment to automatic payment methods
- Improve Fiber optic service quality to reduce revenue loss of 114K per month
- Focus retention efforts on new customers with 0-12 months tenure
- Create special plans for Senior citizens to reduce 41.68% churn rate

SKILLS DEMONSTRATED

SQL Skills:
- Created Master SQL View
- Used CASE WHEN statements
- Used GROUP BY aggregations
- Data transformation logic

Power BI Skills:
- Connected SQL to Power BI
- Created 20 DAX measures
- Built 3 interactive dashboards
- Applied conditional formatting
- Used slicers for filtering

Analysis Skills:
- Identified churn patterns
- Revenue impact analysis
- Risk segment analysis
- Data driven conclusions
